Tent Sizing and Seating Guide

On the Delux Tents Mid Michigan website, tents are labeled by their width. For example, a “20w” tent is 20 feet wide, a “30w” tent is 30 feet wide, and so on.

Below is a general guide showing common tent sizes and their seating capacities using both banquet tables and 60" round tables. These estimates assume the tent is used for seating only. Adding items such as buffet tables, bars, or dance floors will reduce the number of guests you can accommodate.

This guide is meant as a starting point—if you need help choosing the right size, our team is happy to assist.

General Sizing Guidelines

- **20' wide tents** are ideal for backyard gatherings and can seat up to **100 guests** using banquet tables.
- **30' wide tents** can accommodate up to **200 guests**.
- **40', 60', and 80' wide tents** are typically used for events with **more than 200 guests**.

Please reference our tent capacity chart on the next page to aid with your event planning.
